2009 FALL LID TOUR

Sponsored by:
St. Charles County SWCD
St. Louis County SWCD
Missouri Department of Conservation

Low Impact
Development Tour:
St. Louis & Illinois

Date: 10/21/09
Time: 8:00 a.m.

Meet at:
Busch Conservation Area,
Hwy D, St. Charles County

Low Impact Development (LID) is key to protecting natural resources while growing your community responsibly. Join us for a bus tour of 4 local sites where successful LID practices are employed. The bus will leave the Busch Conservation Area at 8 a.m., October 21, 2009, and will travel to the following sites in St. Louis and Illinois.

Rock Hill Trails

A Wood River, IL, conservation subdivision that employs green space preservation, swales, wetlands, water harvesting, recessed cul-de-sac islands, and pavers.

Speaker: Megan A. Riechmann, Project Leader, Southwestern Illinois RC&D

William A. Kerr Foundation

A St. Louis LEED certified building with porous pavers, rain gardens/bio-retention, pre-fabricated green roof tiles, and rain barrels. This site shows us how to retrofit an existing building.

Speakers: John Sweet, Trustee, Kerr Foundation

Bus Speakers:

Ruth Wallace, Municipal Stormwater Program Coordinator, Missouri Department of Natural Resources
Jenn Lewis, Show-Me-Rain Gardens, a project of the St. Louis SWCD

John Burroughs School

A private Ladue school with a three-cell extended detention facility designed to handle 90% of the stormwater flow from a new campus extension protects the water quality of the school's treasured pond.

Speakers: Mark Meyer, Principal Civil Engineer, Intuition & Logic; Ed Philip, Director of Plant Operations, John Burroughs School

Sommet at Big Bend

An up-scale residential development in Kirkwood, that utilizes bio-retention (rain gardens and bio-swales) to meet stormwater detention requirements.

Speaker: Mark Meyer, Principal Civil Engineer, Intuition & Logic

2009 Fall LID Tour

Low Impact Development Practices
